EDUCATION

Bachelor | *Communication Engineering*

Shenzhen University

Sep. 2017 – Jul. 2021

Shenzhen, China

Ph.D. Student | *Information and Communication Engineering*

Shenzhen University, Advisor: Prof. Bin Li

Sep. 2021 – Present

Shenzhen, China

RESEARCH INTERESTS

Multimedia Forensics, Deepfake Detection, Steganalysis

SELECTED PUBLICATIONS

- (IEEE TIFS 2024) *Constructing an Intrinsically Robust Steganalyzer via Learning Neighboring Feature Relationships and Self-Adversarial Adjustment*. (First Author). (Paper)
- (AAAI 2025) *Standing on the Shoulders of Giants: Reprogramming Visual-Language Model for General Deepfake Detection*. (First Author). (Paper)
- (Accepted by NeurIPS 2025) *Guard Me If You Know Me: Protecting Specific Face-Identity from Deepfakes*. (First Author). (Paper)
- (Accepted by CVPR 2026) *Unified Multimodal Model as Auto-Encoder*. (Equal Contribution, 2nd Author). (Paper)
- (Submitted to ICML 2026) *Deep Residual Injection for Full-Spectrum Forensic Signal Perception in Multimodal Large Language Models*. (First Author)
- (Submitted to ICML 2026) *From Sharp Eyes to Expert Mind: Internalizing Expert Knowledge in MLLMs for Tampered Text Detection*. (Equal Contribution, 2nd Author)
- (arXiv) *Seeing before Reasoning: A Unified Framework for Generalizable and Explainable Fake Image Detection*. (First Author)(Paper)

AWARDS

National Scholarship, Ph.D. Student, China.

Fall 2025

ICDAR 2023 DTT in Text Manipulation Detection, Alibaba Security.

Fall 2023

Fourth Place Award

- Developed a high-performance detector to accurately localize manipulated regions in screenshots and photos.

Image Track of the 2023 National Information Hiding and Detection Competition.

Fall 2023

First Prize

- Developed a detector generalizable across multiple steganography algorithms.

The 2022 China Graduate Student Cybersecurity Innovation Competition.

Fall 2022

Second Prize

- Designed a steganography algorithm robust to resizing and JPEG compression for real-world applications.

EXPERIENCES

Tencent YouTu Lab — Facial Security Department

Research Intern

Nov. 2024 – Jan. 2026

Shanghai, China

- *Designed high-performance deepfake detection models for real-world deployment.*
- *Explored practical applications of multimedia forensics in real-world security scenarios.*

Co-Founder, Atomflow (AI4Chem Startup)

AI for Chemical Retrosynthesis

Jan. 2026 – Present

Shenzhen, China

- *Developed AI algorithms for chemical retrosynthesis and LLM-guided planning.*

Shenzhen University Special Graduate Student Fund

CNY 50,000 funding

Jul. 2024 – Jul. 2025

Shenzhen, China
